ADDENDUM NO. 1
TO
PLANS AND SPECIFICATIONS
FOR THE
SOUTH FARM – NEW SWINE NURSERY
UNIVERSITY OF MISSOURI – COLUMBIA, MISSOURI

TO ALL PLAN HOLDERS:

This Addendum No. 1 shall be attached to and become part of the Contract Documents for the “SOUTH FARM – NEW SWINE NURSERY; UNIVERSITY OF MISSOURI – COLUMBIA, MISSOURI” project. The Specifications and Plans shall be changed and added to as follows:

GENERAL CLARIFICATIONS

1. Clarification: All earthwork to be performed by University of Missouri and coordinated with contractor.
2. Clarification: Final floor elevation will be set by University and coordinated with contractor. Generally, the finished floor elevation will be set similar or equal to the adjacent existing structures.
3. Clarification: All exterior perimeter walls shall be a monolithic pour. This is to ensure water-tightness.
4. Clarification: floor slab is to be a monolithic pour.
5. Clarification: Forma-drain dimensions shown on the plans are correct.
6. Clarification: University of Missouri will connect foundation drain to the Forma-drain and drain to daylight.
7. Remove the waterstop on all intermediate walls.
8. Clarification: All precast members and floor system components are by the University of Missouri.
9. Clarification: Contractor may pour the stem-wall as a second pour after the waste holding pit. Reinforcing steel shall follow required lap lengths and overall length.
10. Clarification: The excavation by the University of Missouri shall be ‘walkout’.
11. Clarification: All granular material is by the contractor.
12. Clarification: 24” of low volume change material under the foundation & slab is required per the drawings.
13. All testing will be by the University of Missouri’s consultant.
